

SESMEKE – Turkey –

SESMEKE is a joint venture formed between SEACOR Environmental Services Inc. (SES), a global leader in the provision of environmental, industrial and emergency response services, and MEKE Marine Environmental Services (MEKE), an experienced Turkish oil spill response contractor. SESMEKE combines the international strengths of SES with the local knowledge and expertise of MEKE to provide a range of environmental and emergency response services in and around Turkey. Staffed by a team of expatriate experts and a dedicated local staff, SESMEKE is a leader in its field.

Our Services:

- Oil Spill Response
- Hazardous Material Response
- Waste Management
- Industrial Services
- Site Remediation
- Consultancy
- Training
- Project & Facilities Management
- Environmental & Security Products

Our Experience:

• Oil Spill Response

On behalf of one of its clients, SESMEKE operates a series of Tier 2 oil spill response centres in Turkey to respond to inland and marine spills. The establishment of these response centres involved SESMEKE undertaking the:

- Selection, renovation & outfitting of four response bases;
- Recruitment & training of over 70 local staff;
- Procurement of oil spill and support equipment; and the
- Development of a comprehensive programme of exercises & drills.

SESMEKE's response experience in Turkey includes a major on-land pipeline oil spill incident in the east of the country and the grounding of a fully-laden tanker that was leaving a southern Turkish port.

SESMEKE – Turkey –

• **Hazardous Material (HAZMAT) Response Services**

SESMEKE has the skills and resources to provide Turkey's chemical industry with cost-effective emergency response solutions to the risk of handling and transporting hazardous materials. In addition to its in-country HAZMAT specialists, SESMEKE can call on a vast pool of highly-skilled response experts from its SES affiliates.

• **Environmental & Security Products**

SESMEKE is a supplier of a broad range of environmental response equipment. In 2004/2005 SESMEKE managed the procurement, transportation and commissioning of a large quantity of oil spill and associated support equipment for use by one of its clients in Turkey.

Equipment available from SESMEKE includes:

- Oil & Chemical Spill Equipment
- Marine Response Craft
- Personal Protective Equipment
- Decontamination Equipment
- Pumps & Vacuum Systems
- Temporary Liquid Storage

SES is a specialist in the provision of marine security barriers and other such products that assist our clients in ensuring the integrity of facilities such as oil terminals, power plants and military establishments.

• **Consultancy & Training**

Drawing on the extensive experience of its team, SESMEKE provides a range of emergency response consultancy services and has become a recognised leader in the provision of such training programmes to the oil and gas industry. Training courses undertaken have included HAZWOPER, Incident Command System (ICS), and a variety of oil spill response programmes.
